

Aeration Systems OxyPro Unit
April 30, 2003
page 2

6. Maintenance must be performed by a NH licensed wastewater treatment plant operator. A fact sheet on DES' licensure program is available at <http://www.des.state.nh.us/factsheets/wwt/web-2.htm>. For small residential applications such as the OxyPro unit, a Grade 1-OIT license will be sufficient.
7. Per Env-Ws 1024.06(c), a copy of this letter shall accompany any specific design involving the use of the OxyPro unit under this approval which may be submitted to DES.
8. At your earliest convenience, send DES ten (10) copies of the Installation Manual for staff use in reviewing design submittals.

Thank you for the chance to review this material. If you have questions, please feel free to call me at the Water Division at (603) 271-2941.

Sincerely,

Robert P. Minicucci II, PE
Innovative Technology Coordinator
